FINANCIAL AND COMMERCIAL

SATURDAY'S MARKET DULL. Trading Was Narrow and Altogether Professional.

New York, March 13 .- Stock trading today was narrow, dull and alto-gether professional, the latter element imparting some firmness to the better known issues by covering some of its outstanding commitments. Specialties, more particularly the motor group, moved to lower levels on further profit taking, but showed some recuperative powers in the final dealings. Market leaders were disposed to sag at the outset, but closed the day with moderate gains.

Over night developments bearing upon financial conditions were without influence, even though they told of further improvement in the steel trade trade and the steel trade shipments. and increased dry goods shipments, Yesterday's suspension of the preferred dividend on Southern Rallway was followed by renewed heaviness in the

stock and bonds.

Foreign markets were easier, except Italian remittances which held at the previous days final quotation and gave rise to further conjecture respecting financial arrangements between our bankers and Italian interests. More gold imports from Canada are expect-ed in the coming week. London's markets were firm, the new

war and exchequer bonds showing especial strength. Little inquiry was seen for American securities Rumors

were current of an impending price revision of our stocks by authorities of the London exchange.

The principal feature of the local bank statement was the increase of about \$40,000,000 in the loan account.

Much of this expansion was treashed. Much of this expansion was traceable to the shifting of loans connected with the New York state bond sale. There was a nominal gain in cash, with a small increase in excess reserves.

Total sales of stocks amounted to

74,600 shares.

The bond market showed an easier tone. Total sales (par value) aggregated \$1,184,000. Panama registered 3s declined 3-8 per cent. on call during the week.
